17. Section 10 "Financial Responsibility, Defaults and Remedies" shall be amended by adding the following paragraph as Section 10.7:

"10.7 Notwithstanding anything in this Contract to the contrary, if a Party (the Non-Defaulting Party or the Performing Party, as applicable) is netting or setting-off amounts owed (whether or not then due), pursuant to its rights under this Section 10, and amounts in different currencies are involved, such Party shall convert all amounts into a single currency of its choice by utilizing the exchange rate quoted by the Bank of Canada on the last Business Day before the Day on which the netting or set-off is to be performed and then net or set-off such amounts in accordance with the terms and conditions of this Section 10."

20. Add the following new Section 10.7 at the end of Section 10:

"10.7 The parties agree to margin and mark-to-market their obligations under outstanding Transactions in accordance with the following provisions:

(a) Each party's "Net Exposure" means on any date an amount (if positive) that would be payable to such party by the other party as a Total Termination Payment calculated in accordance with Section 10.3 of the Contract. TTTTTTTTTT ("TTT") shall determine such amount for both parties in accordance with the Contract.

(b) Each party's Net Exposure shall be calculated by TTT at the close of TTT's business each Business Day. If, at the close of business on any Business Day, a party's Net Exposure exceeds the "Margin Threshold" (as defined herein) applicable to the other party, then Performance Assurances shall be delivered and/or returned so that the party having the Net Exposure holds Performance Assurances in an amount equal to such excess over the "Margin Threshold" and the other party holds no Performance Assurances. If, at the close of business on any Business Day a party's Net Exposure is less than the "Margin Threshold" applicable to the other party, all Performance Assurances then held shall be returned. All payments and returns of Performance Assurances shall be rounded to the nearest integral multiple of the applicable amount defined below as the "Increment Amount" (and rounded up if exactly between two integral multiples of the applicable Increment Amount). All Performance Assurances due hereunder shall be provided or returned by the close of business on the next Business Day after the day as of which occurs the calculation determining that such Performance Assurances is due or is to be returned. Notwithstanding the foregoing, if at any time a party is in an Event of Default, that party's Margin Threshold shall be zero and the Increment Amount shall be U.S.\$1.00.

(c) The "Margin Threshold" applicable to TTT and XXXXXXXX ("XXX") and the corresponding "Increment Amount" shall be the amount specified below opposite the Credit Rating (as defined herein) of TTT and XXX, respectively, at that time:

Credit Rating		Margin Threshold	Increment Amount
Moody's	S&P		
"A3" or above	"A-" or above	U.S.\$ _____	U.S.\$ _____
"Baa2" to "Baa1"	"BBB" to "BBB+"	U.S.\$ _____	U.S.\$ _____
Below "Baa2" (or no rating other than due to repayment of rated indebtedness)	Below "BBB" (or no rating other than due to repayment of rated indebtedness)	Zero	U.S.\$1.00

(d) For purposes of determining the amount of Performance Assurances held by a party at any time, any standby irrevocable letter of credit held as a Performance Assurance (a "Letter of Credit") shall be valued at its principal amount (provided that a Letter of Credit shall be valued at zero unless it expires more than thirty days after the date of such valuation). A party need not return a Letter of Credit held as a Performance Assurance unless the entire principal amount of such Letter of Credit is required to be returned. If more than one type of Performance Assurance is held, a party may elect which to return as and if required under the Contract. Each Letter of Credit shall (i) be in the beneficiary's favor, (ii) be issued or confirmed by a bank in New York City or a Schedule "I" Bank Act (Canada) bank which is and continues to be acceptable to the party receiving the Letter of Credit, (iii) have such terms and conditions as the party receiving the Letter of Credit shall specify, and (iv) be fully enforceable and not the subject of any action restraining or attempting to restrain payment thereunder. All costs relating to any Letter of Credit shall be for the account of the party providing the Letter of Credit.

(e) Each party shall have the free and unrestricted right to use and dispose of Performance Assurances provided to it hereunder. Except as otherwise specified herein, the limitations on the rights of a secured party under Section 9-207 of the New York Uniform Commercial Code will not apply to a party when it holds Performance Assurances. Funds held as Performance Assurances shall bear interest calculated on a daily basis at overnight London Interbank bid rate as from time to time in effect (as reported by Telerate), with the amount of interest accrued monthly payable on the third Business Day of the following month.

(f) Performance Assurances may be provided in the form of cash delivered by wire transfer of immediately available funds to an account designated from time to time by the party entitled to receive the Performance Assurances. The parties agree that, with respect to Performance Assurances in the form of cash, the relationship between the party providing the Performance Assurances (the "Providing Party") and the party receiving the Performance Assurances (the "Receiving Party") is a relationship of creditor and debtor, respectively, and all right, title and interest in such Performance Assurances is transferred absolutely by the Providing Party to the Receiving Party. For greater certainty, no security interest in Performance Assurances in the form of cash is intended to be created by the Contract. The Providing Party is entitled to payment of the amount of any such Performance Assurances only as provided in the Contract. Although no security interest is created in the Performance Assurances in the form of cash, each party (i) grants to the other party a first priority continuing security interest in and lien on and right of set-off against the obligations of the Receiving Party to pay the amount of the Performance Assurances in the form of cash in accordance with the Contract, provided that the Receiving Party's payment obligations shall not be included in determining the value of Performance Assurances; and (ii) acknowledges that TTT as a Receiving Party may file any precautionary financing statement or other similar lien document as it deems advisable in respect of such Performance Assurance.

(g) If XXX objects to any Net Exposure determined by TTT then (i) XXX shall notify TTT of such disagreement by telephone, (ii) during the pendency of any such disagreement, TTT's calculation of Net Exposure shall be controlling and (iii) the parties shall confer in good faith with a view towards mutually agreeing upon the Net Exposure. In the event the parties are unable to mutually agree upon the Net Exposure within one Business Day of any such disagreement, any component of such determination upon which the parties are unable to agree shall be determined based on dealer quotations. A "dealer quotation" means such price or payment as is quoted for the relevant commodity or Transaction, for a transaction between the party obtaining the quote and the quoting dealer. A "dealer" is a person who regularly quotes as part of its business a two-way market to commercial parties in the relevant commodity or Transaction. Each party shall obtain quotes from as many dealers as is mutually agreed or, absent

agreement, from two dealers so selected. The dealer quotation shall be the arithmetic mean of the quotations so obtained."
